24/415 SMOOTH BLACK PRESSTOP DISPENSING CAP PP

CONTACT US
FOR DETAILS

Likely development programs include shampoo, conditioner, lotion, cleanser, gel, and sun care. Orifice size should match viscosity closely enough to avoid slow dispensing, stringing, or an untidy shutoff. Part 130420 should be judged on technical fit, line performance, and the finished user experience. Confirm thread fit, torque, liner performance, leakage resistance, and opening behavior on production containers. Good component decisions here can prevent costly changes during scale-up.

SKU: 130420 | **Categories:** Caps, Dispensing Caps, Plastic Caps, Plastic Presstop Caps |
