

28/400 LOTION PUMP RIBBED WHITE

Part 126410 should be judged on technical fit, line performance, and the finished user experience. Approve the system only after formula compatibility, functional cycling, and distribution testing are complete. Actuation feel is part of perceived quality, but dependable recovery and clean shutoff protect the experience over time. Product teams may consider it for lotions, liquid soaps, shampoos, conditioners, and salon care. This keeps sourcing decisions tied to measurable package requirements.
