3 OZ 53/400 REGULAR WALL STRAIGHT BASE WHITE PP JAR

Sidewall geometry should be judged for label laydown, panel resistance, and how cleanly users can recover product. For Part 119770, the central question is how the jar packaging format behaves in the assembled package. Potential uses include skin-care creams, body butter, hair treatments, wellness powders, and supplements. Final selection should follow formula testing, closure trials, decoration review, and line qualification. This keeps sourcing decisions tied to measurable package requirements.
