32 OZ BOSTON ROUND 28/400 AMBER GLASS BOTTLE

For Part 105900, the central question is how the bottle packaging format behaves in the assembled package. Product teams may consider it for cosmetics, personal care, wellness, supplements, household, and specialty products. The 28/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Production-intent samples should be filled, sealed, decorated, and distribution-tested before commercialization. Good component decisions here can prevent costly changes during scale-up.
