FOR DETAILS

Closure appearance should not outrank application torque, removal force, liner choice, and repeated-use behavior. It may fit briefs involving cosmetics, personal care, wellness, supplements, household, and specialty products. For Part 131030, the central question is how the packaging closure behaves in the assembled package. Qualification should cover thread engagement, liner compatibility, line application, and expected storage conditions. Good component decisions here can prevent costly changes during scale-up.

SKU: 131030 | **Categories:** Caps, Dispensing Caps, Plastic Caps, Plastic Snaptop Caps |
