FOR DETAILS

The format can serve powdered supplements, bath salts, pet-care powders, and granular household products. The 33/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. The 33/400 Smooth Red NutraFlapper Dispensing PP Cap (Part 129320) gives brands a concrete flapper dispensing closure for balancing usability, manufacturing, and shelf communication. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials.
