33/400 SMOOTH WHITE NUTRAFLAPPER DISPENSING PP CAP

Part 129340 gives development teams a focused basis for testing this flapper dispensing closure. It is relevant to powdered supplements, bath salts, pet-care powders, and granular household products. Hole pattern and flap design determine whether powders dispense evenly or bridge, flood, and collect around the deck. Use filled-package trials to qualify fit, liner compression, leakage, and repeated opening performance. That discipline protects both package performance and the consumer experience.

SKU: 129340 | **Categories:** Caps, Dispensing Caps, Flapper Caps, Plastic Caps |
