33/400 SMOOTH WHITE NUTRAGEN II DISPENSING PP CAP

CONTACT US
FOR DETAILS

A useful flapper closure balances shake output, spoon access, clean reclosure, and resistance to powder accumulation. Likely development programs include powdered supplements, bath salts, pet-care powders, and granular household products. This flapper dispensing closure pairs a defined specification with practical manufacturing and consumer-use considerations. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. A thoughtful specification gives operations and brand teams the same target.

SKU: 129350 | **Categories:** Caps, Dispensing Caps, Flapper Caps, Plastic Caps |
