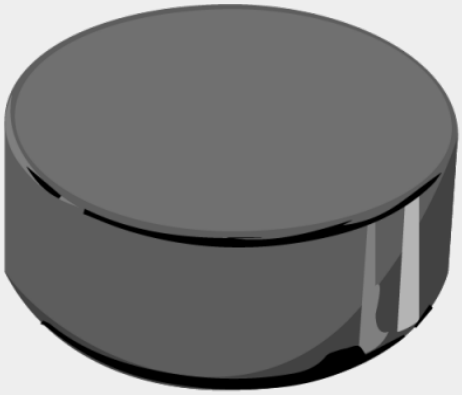
38/400 GOLD METALIZED X TALL CAP F217



Product teams may consider it for prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Phenolic rigidity supports a precise feel, but liner selection and torque remain central to reliable sealing. Part 135540 should be judged on technical fit, line performance, and the finished user experience. Prototype with the intended container and product to verify torque range, sealing, and consumer handling. That discipline protects both package performance and the consumer experience.
