FOR DETAILS

The format can serve lotions, liquid soaps, shampoos, conditioners, and salon care. The 38/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. When the brief calls for a well-defined lotion dispensing pump, Part 126580, the 38/400 Lotion Pump Smooth White, provides a practical specification to evaluate. Prototype with the production formula to evaluate flow, user effort, leakage, and repeatability.
