# 38/400 RIBBED BLACK FLIP TOP DISPENSING PP CAP

Part 131070 gives development teams a focused basis for testing this flip-top dispensing closure. Orifice geometry, hinge life, opening force, and shutoff cleanliness should be tuned to the product's viscosity. Confirm thread fit, torque, liner performance, leakage resistance, and opening behavior on production containers. It is relevant to personal care, hair care, sun care, wellness, and household products. Good component decisions here can prevent costly changes during scale-up.

**SKU:** 131070 | **Categories:** Caps, Dispensing Caps, Plastic Caps, Plastic Snaptop Caps |
