

38/400 RIBBED WHITE FLIP TOP DISPENSING PP CAP

When the brief calls for a well-defined flip-top dispensing closure, Part 131080, the 38/400 Ribbed White Flip Top Dispensing PP Cap, provides a practical specification to evaluate. A flip-top succeeds when it opens intuitively, dispenses cleanly, and survives the expected number of use cycles. Its application range extends to personal care, hair care, sun care, wellness, and household products. Before release, evaluate application torque, seal integrity, removal force, and distribution performance.
