38/400 SILVER METALIZED ROYAL CAP F217

A premium cap profile still requires careful review of thread engagement, liner compression, and removal force. Potential uses include prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. For a production-intent package, the 38/400 Silver Metalized Royal Cap F217 (Part 135560) offers a defined compression-molded closure rather than a generic starting point. Prototype with the intended container and product to verify torque range, sealing, and consumer handling.

SKU: 135560 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
