38/400 WHITE SMOOTH STRAIGHT PP CAP / UNLINED

This packaging closure pairs a defined specification with practical manufacturing and consumer-use considerations. The 38/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. The format can serve cosmetics, personal care, wellness, supplements, household, and specialty products. Prototype with the intended container and product to verify torque range, sealing, and consumer handling. The assembled package should communicate quality before the product is used.
