4 OZ 24/410 IMPERIAL ROUND NATURAL HDPE BOTTLE

The 24/410 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Part 110840 gives development teams a focused basis for testing this bottle packaging format. Product teams may consider it for cosmetics, personal care, wellness, supplements, household, and specialty products. Production-intent samples should be filled, sealed, decorated, and distribution-tested before commercialization. That discipline protects both package performance and the consumer experience.
