4 OZ 58/400 REGULAR WALL STRAIGHT BASE CLEAR PS JAR

The commercial value of this jar packaging format depends on disciplined component integration. The 58/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Use representative samples to validate sealing, handling, decoration, storage stability, and shipping durability. It may fit briefs involving skin-care creams, body butter, hair treatments, wellness powders, and supplements. This is where practical engineering and brand presentation need to agree.
