4 OZ 58/400 WIDE MOUTH AMBER PET JAR

The 58/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. The format can serve skin-care creams, body butter, hair treatments, wellness powders, and supplements. Part 120720 should be judged on technical fit, line performance, and the finished user experience. Production-intent samples should be filled, sealed, decorated, and distribution-tested before commercialization. Good component decisions here can prevent costly changes during scale-up.
