4 OZ 70/400 REGULAR WALL STRAIGHT BASE NATURAL PP JAR

This jar packaging format deserves evaluation within the complete product and container system. It may fit briefs involving skin-care creams, body butter, hair treatments, wellness powders, and supplements. Jar selection should balance filling access with closure weight, decoration area, and the product's expected use rate. Production-intent samples should be filled, sealed, decorated, and distribution-tested before commercialization. This is where practical engineering and brand presentation need to agree.
