# 40/400 GOLD UNISHELL CAP F217

CONTACT US
FOR DETAILS

Even on the same neck finish, liner thickness and thread engagement can materially change seal performance. The format can serve cosmetics, personal care, wellness, supplements, household, and specialty products. Part 128260 describes the 40/400 Gold Unishell Cap F217, a packaging closure whose commercial value depends on thoughtful component integration. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. This keeps sourcing decisions tied to measurable package requirements.
