43/400 SMOOTH WHITE FLAP MATE DISPENSING PP CAP

This flapper dispensing closure deserves evaluation within the complete product and container system. A useful flapper closure balances shake output, spoon access, clean reclosure, and resistance to powder accumulation. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. It is relevant to powdered supplements, bath salts, pet-care powders, and granular household products. The objective is a package that feels intentional at every point of use.

SKU: 129450 | **Categories:** Caps, Dispensing Caps, Flapper Caps, Plastic Caps |
