50 ML 53/400 MAGDA GLASS JAR

The 53/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Part 118230 should be judged on technical fit, line performance, and the finished user experience. It may fit briefs involving skin-care creams, body butter, hair treatments, wellness powders, and supplements. Production-intent samples should be filled, sealed, decorated, and distribution-tested before commercialization. The best result will balance line efficiency with intuitive consumer use.
