# 51/400 BLACK PHENOLIC DOME CAP F217

Tall and decorative profiles can improve presence while adding leverage that makes torque control more noticeable to users. Product developers comparing compression-molded closure options can use Part 136160, the 51/400 Black Phenolic Dome Cap F217, as a focused candidate for qualification. Its application range extends to prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials.

**SKU:** 136160 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
