51/400 GOLD METALZIED ROYAL CAP F217

Part 136210 should be judged on technical fit, line performance, and the finished user experience. The 51/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Prototype with the intended container and product to verify torque range, sealing, and consumer handling. It may fit briefs involving prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Good component decisions here can prevent costly changes during scale-up.

SKU: 136210 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
