51/400 SHINY GOLD METAL OVERSHELL STRAIGHT SIDED CAP F217 2 X .490

This packaging closure pairs a defined specification with practical manufacturing and consumer-use considerations. The 51/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Before release, evaluate application torque, seal integrity, removal force, and distribution performance. It may fit briefs involving cosmetics, personal care, wellness, supplements, household, and specialty products. This is where practical engineering and brand presentation need to agree.
