53/400 SIVER UNISHELL CAP F217

Product teams may consider it for cosmetics, personal care, wellness, supplements, household, and specialty products. Nominal finish compatibility is only the first screen; thread profile, land geometry, torque, and liner compression decide sealing. Part 128350 should be judged on technical fit, line performance, and the finished user experience. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. Good component decisions here can prevent costly changes during scale-up.

SKU: 128350 | **Categories:** Caps, Metal Caps, Metal Unishell Caps |
