58/400 SHINY GOLD METAL OVERSHELL EXTRA TALL CAP F217 2.35 X .827

Nominal finish compatibility is only the first screen; thread profile, land geometry, torque, and liner compression decide sealing. This packaging closure pairs a defined specification with practical manufacturing and consumer-use considerations. The format can serve cosmetics, personal care, wellness, supplements, household, and specialty products. Qualification should cover thread engagement, liner compatibility, line application, and expected storage conditions. A thoughtful specification gives operations and brand teams the same target.

SKU: 113130 | **Categories:** Featured Items, Metal Overshell Plastic Caps, New |
