6 OZ 70/400 WIDE MOUTH AMBER PET JAR

The format can serve skin-care creams, body butter, hair treatments, wellness powders, and supplements. Jar selection should balance filling access with closure weight, decoration area, and the product's expected use rate. This jar packaging format pairs a defined specification with practical manufacturing and consumer-use considerations. Use representative samples to validate sealing, handling, decoration, storage stability, and shipping durability. The assembled package should communicate quality before the product is used.
