60 ML 53/400 VENUS GLASS JAR

Specified as Part 117950, the 60 ML 53/400 Venus Glass Jar brings its key size, finish, material, and color attributes into one development reference. Final selection should follow formula testing, closure trials, decoration review, and line qualification. A generous opening improves filling and access, but closure diameter also affects cost, torque, and shelf proportion. Appropriate markets can include skin-care creams, body butter, hair treatments, wellness powders, and supplements.
