70/400 GOLD UNISHELL CAP F217

This packaging closure deserves evaluation within the complete product and container system. The 70/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Qualification should cover thread engagement, liner compatibility, line application, and expected storage conditions. Likely development programs include cosmetics, personal care, wellness, supplements, household, and specialty products. A thoughtful specification gives operations and brand teams the same target.

SKU: 128390 | **Categories:** Caps, Metal Caps, Metal Unishell Caps |
