FOR DETAILS

For a production-intent package, the 70/400 Shiny Silver Metal Overshell Straight Sided Cap F217 (Part 137460) offers a defined packaging closure rather than a generic starting point. The 70/400 designation should be verified dimensionally because nominal finish names do not guarantee identical sealing behavior. Potential uses include cosmetics, personal care, wellness, supplements, household, and specialty products. Before release, evaluate application torque, seal integrity, removal force, and distribution performance.
