

## 75 ML 58/400 HEAVY WALL CLEAR PETG JAR

Jar selection should balance filling access with closure weight, decoration area, and the product's expected use rate. This jar packaging format deserves evaluation within the complete product and container system. Product teams may consider it for skin-care creams, body butter, hair treatments, wellness powders, and supplements. Use representative samples to validate sealing, handling, decoration, storage stability, and shipping durability. The assembled package should communicate quality before the product is used.
