8 OZ 89/400 WHITE THICK WALL STRAIGHT BASE PP JAR

This jar packaging format pairs a defined specification with practical manufacturing and consumer-use considerations. Final selection should follow formula testing, closure trials, decoration review, and line qualification. A generous opening improves filling and access, but closure diameter also affects cost, torque, and shelf proportion. Its application range extends to skin-care creams, body butter, hair treatments, wellness powders, and supplements. The assembled package should communicate quality before the product is used.
