E3 GOLD METALIZED RING CAP F217

The format can serve prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. A premium cap profile still requires careful review of thread engagement, liner compression, and removal force. Part 134480 should be judged on technical fit, line performance, and the finished user experience. Qualification should cover thread engagement, liner compatibility, line application, and expected storage conditions. That discipline protects both package performance and the consumer experience.
