E3 SILVER PHENOLIC DOME CAP F217

The commercial value of this compression-molded closure depends on disciplined component integration. Tall and decorative profiles can improve presence while adding leverage that makes torque control more noticeable to users. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials. Product teams may consider it for prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. The objective is a package that feels intentional at every point of use.

SKU: 134520 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
