# E5 GOLD METALIZED ECLIPSE CAP F217

Phenolic rigidity supports a precise feel, but liner selection and torque remain central to reliable sealing. Likely development programs include prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. The E5 Gold Metalized Eclipse Cap F217, PackagingBuyer Part 134970, gives product teams a clearly specified compression-molded closure for commercial development. Qualification should cover thread engagement, liner compatibility, line application, and expected storage conditions. Good component decisions here can prevent costly changes during scale-up.

**SKU:** 134970 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
