# E5 SILVER METALZIED ECLIPSE CAP F217

For Part 135050, the central question is how the compression-molded closure behaves in the assembled package. Tall and decorative profiles can improve presence while adding leverage that makes torque control more noticeable to users. Potential uses include prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. Prototype with the intended container and product to verify torque range, sealing, and consumer handling. Good component decisions here can prevent costly changes during scale-up.

**SKU:** 135050 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
