E5 WHITE UREA RING CAP F217

Potential uses include prestige beauty, wellness, pharmaceutical, supplement, and specialty-product packaging. A premium cap profile still requires careful review of thread engagement, liner compression, and removal force. Part 135150 should be judged on technical fit, line performance, and the finished user experience. Use filled-package trials to qualify fit, liner compression, leakage, and repeated opening performance. The best result will balance line efficiency with intuitive consumer use.

SKU: 135150 | **Categories:** Caps, Compression Molded Caps, Non-Dispensing Caps, Plastic Caps |
