NAIL POLISH CAP SPECIAL FRAN PP BLACK 26.2MM, 19.3MM

CONTACT US
FOR DETAILS

Cap proportions influence grip and brush control, while stem alignment affects application accuracy and bottle wiping. Potential uses include nail lacquer, treatment, color cosmetics, and professional salon programs. For a production-intent package, the Nail Polish Cap Special Fran PP Black 26.2mm, 19.3mm (Part 117190) offers a defined nail-polish closure rather than a generic starting point. Final approval should follow closure-fit testing, seal evaluation, decoration review, and shipping trials.

SKU: 117190 | **Categories:** Nail Polish Caps, Nail Polish Components |
